

# Fife Ethylene Plant - Enclosed Ground Flare Project (EGF) Community Update - April 2022

**Key Benefits:** Reduces use of elevated flare by at least 98% ✓ Quieter than a petrol lawnmower ✓ No vibration ✓ Largely invisible on clear day or night ✓ Completely smokeless ✓ Hidden flame ✓ 1/3 height of elevated flare ✓

## Progress Update

- Project remains focused on start-up by December 2022
- Wind-fence pre-cast installation underway with target to complete by Easter.
- Burner pipework and riser deliveries complete. Burner runner stages 1, 4, 6 and 7 fabrication complete. Stage 5 underway.
- Flare header pipework fabrication nearing completion at local Fife business, Langfields.

## Stakeholder Communications

- Continued social media promotion via UK channels
